

Ch 1**Sec 1.1**

HW: Note Taking: Sec 1.1

obj: Define Physical Science and distinguish between theories and scientific laws.Physical Science

- Study of matter and Energy.
- Study of Matter
 - * How matter interacts w/ other objects.
 - * The composition of Matter.

Sep 7 - 10:09 AM

- Study EnergyTheories

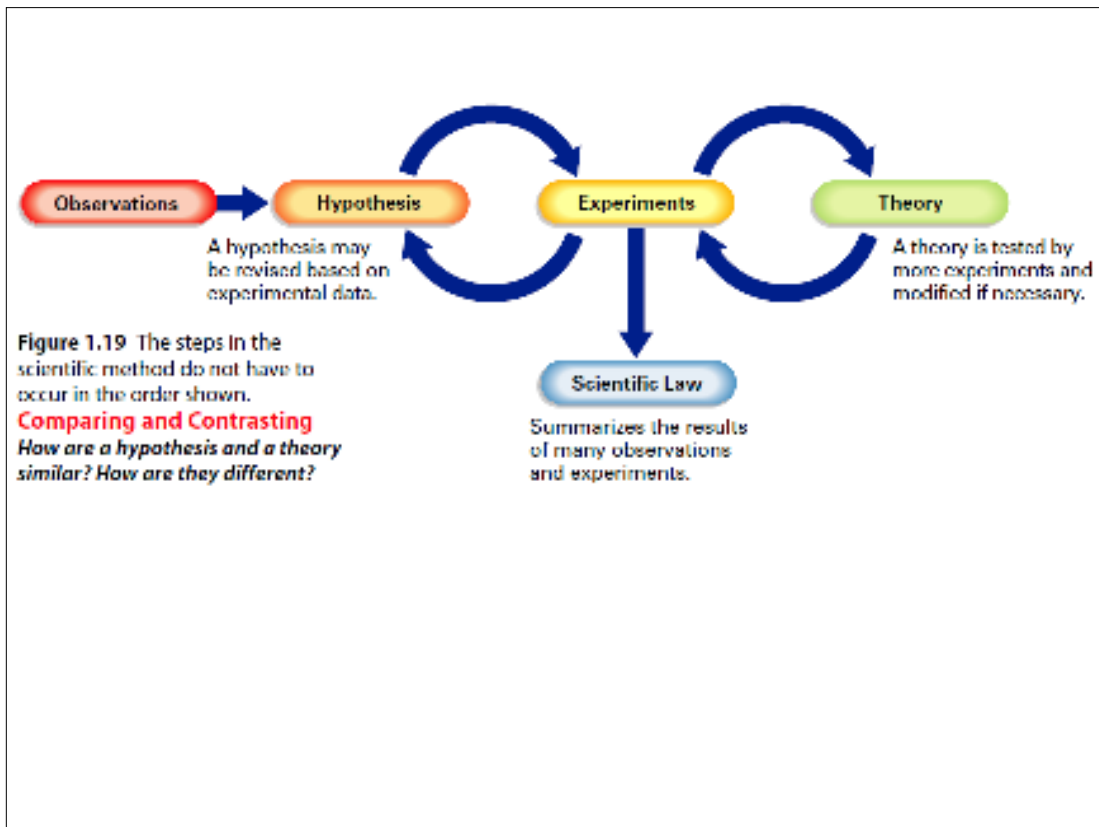

- A theory is an explanation of a problem that is supported by experimental data.
- A Theory changes w/ changing data.
- Theories never become a scientific Law

Sep 7 - 10:49 AM

Scientific Law

- Scientific Law is a behavior of nature.
- Laws Describe Behavior they do not explain the Behavior.
- Theories are used to develop Scientific Laws.
- Laws can not be changed.
* Laws become false.

Sep 7 - 10:58 AM

Aug 28-7:56 AM
